Safety Precaution

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

The light flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operation and servicing instructions in the literature accompanying the appliance.

Warning: To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

1) Please read the instruction manual carefully and follow all the requirements of safe operation to operate the device.

2) Do not use this unit near water. Do not place over the unit any container with liquid inside.

3) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

4) Unplug this unit during lightning storms or when unused for long time.

5) About Cleaning: Unplug the system, use only wet cloth to clean. Do not use liquid detergent or aerosol.

6) Only use accessories specified by the manufacturer.

7) Refer all servicing to qualified service personnel, servicing is required when the unit has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the unit, exposed to moisture, does not operate normally. Don't try to repair the machine by yourself because of the danger of high voltage and electric shock.

1

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

¨ Reorient or relocate the receiving antenna.

¨ Increase the separation between the equipment and receiver.

¨ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

¨ Consult the dealer or an experienced radio/TV technician for help.

Troubleshooting

Symptom	Cause	Corrective Actions
Digital Photo Frame doesn't power on	The power connector to the unit is not securely inserted.	Make sure you connect the AC adaptor to the frame properly. When you connect the AC adaptor to the frame and power on the unit, even without a memory card, you should see the main menu. If you don't see it, check if the power is connected to the Digital Photo Frame and make sure it is securely attached.
No photo files on the memory card	Card is wrongly inserted	Verify if the way you inserted the card is correct. Make sure the front label of the memory card is facing AWAY from the front of the unit. Do not force the memory card into the slot.
The file doesn't play.	Incompatible file format	Make sure there is at least one supported image file on the memory card. Compatible photo format: JPEG
